

### Footpath report

Over the year signs have been trimmed round where next to hedges and fingerposts replaced and posts reinstated. There is a footbridge that I have report to the Rights of Way officer, he felt it was still safe, but I will continue to monitor going forward.

I cut all the footpaths on our land and adjacent parishes throughout the summer months to make for easy walking and help define where the footpaths are.

### Tree Warden report 2026

Over the winter several branches were blown down, these were cleared up along with the pruning and removal of dead Ash trees around the village playing field.

Over the winter homegrown Oak saplings, Evergreen Oaks have been planted. The trees along the B1078 are still causing concerns with visibility when crossing the junction. We hope that a solution can be found to improve the problem.
