To Parish Council

Firstly I would like to thank everyone who gave their time voluntarily to establish the new play area. Without criticism and more for safety reasons, the wobble bridge leading to the tower and slide, would be better with a safety net attached to the sides of the chains either side of the platform. This would create a safety net and stop children falling from the platform to the floor.

P.T.O.

If at some point we could

ask Kampan, there looks

to be room for another

Springer so 2 friends

could spring together.

These are only observations.

It looks like the joints

have been marked on the

net. There are still five

joints across the wobbly

bridge taped up.

and one taped up on the

monkey bars.

We picked up the cluck tape

that had been left on the floor

and this piece of paper left

by Kampan,

Many Thanks
